

Internet, WWW, Browser, Search Engine & Networking

Total Questions: 50

Time: 50 Minutes

Type: MCQ

Language: English + Hindi

Instructions / निर्देश:

Choose the correct option. / सही विकल्प चुनिए।

Each question carries 1 mark. / प्रत्येक प्रश्न 1 अंक का है।

Q1. What is the Internet?

Internet क्या है?

- A. A global network of interconnected computers
- B. A type of printer
- C. A programming language
- D. An operating system

Q2. WWW stands for:

WWW का पूरा नाम है:

- A. World Wide Web
- B. World Web Window
- C. Wide World Website
- D. Web World Wide

Q3. Which software is used to open websites?

Website खोलने के लिए किस software का उपयोग किया जाता है?

- A. Compiler
- B. Web Browser
- C. Calculator

D. Antivirus

Q4. Which of the following is a search engine?

निम्न में से कौन-सा Search Engine है?

A. Windows

B. Chrome

C. Google

D. Linux

Q5. HTML is mainly used for:

HTML का मुख्य उपयोग किसके लिए होता है?

A. Creating the structure of web pages

B. Playing music only

C. Scanning documents

D. Managing hardware

Q6. URL stands for:

URL का पूरा नाम है:

A. Universal Resource Link

B. Uniform Resource Locator

C. Uniform Reference Link

D. Universal Reference Locator

Q7. An IP address is used to:

IP Address का उपयोग किसके लिए किया जाता है?

A. Identify a device on a network

B. Create a document

C. Edit an image

D. Play a video

Q8. ISP stands for:

ISP का पूरा नाम है:

- A. Internet System Program
- B. Internet Service Provider
- C. Internal Service Protocol
- D. Internet Security Provider

Q9. LAN stands for:

LAN का पूरा नाम है:

- A. Local Area Network
- B. Large Area Network
- C. Long Access Network
- D. Local Access Node

Q10. Which topology generally uses a central hub/switch?

किस topology में सामान्यतः central hub/switch का उपयोग होता है?

- A. Bus
- B. Ring
- C. Star
- D. Mesh

Q11. Which transmission medium uses light signals?

किस transmission medium में light signals का उपयोग होता है?

- A. Twisted Pair
- B. Coaxial Cable
- C. Fiber Optic Cable

D. Copper Wire

Q12. FTP is mainly used for:

FTP का मुख्य उपयोग किसके लिए होता है?

- A. Sending emails
- B. File transfer
- C. Browsing websites
- D. Sending SMS

Q13. SMTP is mainly related to:

SMTP मुख्य रूप से किससे संबंधित है?

- A. Email sending
- B. File downloading
- C. Web browsing
- D. Video calling

Q14. A hyperlink is used to:

Hyperlink का उपयोग किसके लिए किया जाता है?

- A. Format text
- B. Connect to another page/resource
- C. Increase RAM
- D. Install an operating system

Q15. In which topology are devices connected in a circular manner?

किस topology में devices circular manner में जुड़े होते हैं?

- A. Star
- B. Bus

- C. Ring
- D. Tree

Q16. ARPANET was developed as a:

ARPANET को किस रूप में विकसित किया गया था?

- A. Computer network
- B. Search engine
- C. Web browser
- D. Programming language

Q17. ARPANET is considered an important predecessor of:

ARPANET को किसका महत्वपूर्ण predecessor माना जाता है?

- A. MS Word
- B. Internet
- C. Bluetooth
- D. Windows

Q18. The main purpose of a web browser is to:

Web browser का मुख्य उद्देश्य है:

- A. Create hardware
- B. Access and display web pages
- C. Repair computers
- D. Create databases

Q19. Which of the following is NOT a web browser?

निम्न में से कौन-सा Web Browser नहीं है?

- A. Firefox
- B. Chrome

- C. Google
- D. Edge

Q20. What is the main purpose of a search engine?

Search Engine का मुख्य उद्देश्य क्या है?

- A. Find information on the Internet
- B. Create computer hardware
- C. Edit videos
- D. Format a hard disk

Q21. Hypertext means:

Hypertext का अर्थ है:

- A. Text containing links to other information
- B. Text printed in large size
- C. Text stored only offline
- D. Text without formatting

Q22. A website is:

Website क्या है?

- A. A collection of related web pages
- B. A computer virus
- C. A hardware device
- D. A network cable

Q23. The first/main page of a website is commonly called:

Website के मुख्य/पहले page को सामान्यतः क्या कहा जाता है?

- A. Search page
- B. Home page

C. Download page

D. Server page

Q24. DNS is used to:

DNS का उपयोग किसके लिए किया जाता है?

A. Convert domain names into IP addresses

B. Create images

C. Send emails

D. Compress files

Q25. The domain extension .com is commonly associated with:

.com domain extension सामान्यतः किससे संबंधित है?

A. Government

B. Educational institutions

C. Commercial organizations

D. Military organizations

Q26. The .gov domain is generally used by:

.gov domain सामान्यतः किसके द्वारा उपयोग किया जाता है?

A. Government organizations

B. Commercial companies

C. Schools only

D. Search engines

Q27. Which part of a URL indicates the communication protocol?

URL का कौन-सा भाग communication protocol बताता है?

- A. https://
- B. .com
- C. example
- D. /page

Q28. In https://www.example.com, example.com mainly represents the:

https://www.example.com में example.com मुख्यतः क्या दर्शाता है?

- A. Protocol
- B. Domain name
- C. File extension
- D. Port number

Q29. In a URL, a port number is generally used to:

URL में port number का उपयोग सामान्यतः किसलिए होता है?

- A. Identify a network service
- B. Identify a keyboard
- C. Store a password
- D. Create a domain name

Q30. Which is an example of an absolute URL?

निम्न में से कौन Absolute URL का उदाहरण है?

- A. about.html
- B. images/photo.jpg
- C. https://www.example.com/about.html
- D. ../index.html

Q31. Which is an example of a relative URL?

निम्न में से कौन Relative URL का उदाहरण है?

- A. <https://www.google.com>
- B. <http://example.com/page>
- C. www.example.com
- D. images/photo.jpg

Q32. Which of the following is a guided transmission medium?

निम्न में से कौन Guided transmission medium है?

- A. Radio wave
- B. Microwave
- C. Fiber optic cable
- D. Infrared

Q33. Twisted pair cable consists of:

Twisted Pair cable में क्या होता है?

- A. Twisted pairs of copper wires
- B. Glass tubes only
- C. Radio antennas
- D. Plastic sheets only

Q34. Coaxial cable generally contains:

Coaxial cable में सामान्यतः क्या होता है?

- A. A central conductor with insulation and shielding
- B. Only glass fibers
- C. Only wireless signals
- D. No conductor

Q35. Which is an unguided transmission medium?

निम्न में से कौन Unguided transmission medium है?

- A. Coaxial cable
- B. Fiber optic cable
- C. Twisted pair cable
- D. Radio waves

Q36. MAN generally covers:

MAN सामान्यतः किस क्षेत्र को cover करता है?

- A. A single room
- B. A city or metropolitan area
- C. The entire world
- D. Only one computer

Q37. WAN generally covers:

WAN सामान्यतः किस क्षेत्र को cover करता है?

- A. A very large geographical area
- B. Only one building
- C. One classroom
- D. One computer

Q38. Which topology uses a common backbone cable?

किस topology में common backbone cable का उपयोग होता है?

- A. Star
- B. Mesh
- C. Bus
- D. Ring

Q39. Which topology provides multiple possible paths between devices?

किस topology में devices के बीच multiple possible paths होते हैं?

- A. Bus
- B. Mesh
- C. Star
- D. Ring

Q40. POP3 is mainly used for:

POP3 का मुख्य उपयोग किसके लिए होता है?

- A. Receiving email
- B. Sending email
- C. Transferring web pages
- D. Creating websites

Q41. Define Web Browser.

Web Browser की परिभाषा लिखिए।

Q42. Define Search Engine.

Search Engine की परिभाषा लिखिए।

Q43. Define URL (Uniform Resource Locator).

URL की परिभाषा लिखिए।

Q44. Define ISP (Internet Service Provider).

ISP की परिभाषा लिखिए।

Q45. Define Network Topology.

Network Topology की परिभाषा लिखिए।

Q46. A college wants to connect computers in different buildings using high-speed communication over long distances. Which medium would be most suitable?

एक college अलग-अलग buildings के computers को high-speed और long-distance communication से जोड़ना चाहता है। कौन-सा medium उपयुक्त होगा?

- A. Twisted pair
- B. Coaxial cable
- C. Fiber optic cable
- D. Infrared

Q47. A student types <https://www.example.com> into Chrome. Which combination is involved in this process?

एक student Chrome में <https://www.example.com> type करता है। इस process में कौन-सा combination involved है?

- A. Browser + URL + Web server
- B. Printer + Scanner + URL
- C. Compiler + RAM + Keyboard
- D. FTP + SMTP + POP3

Q48. A user enters www.example.com, but the computer needs an IP address to communicate with the server. Which service helps here?

User www.example.com enter करता है, लेकिन computer को server से communicate करने के लिए IP address चाहिए। कौन-सी service मदद करती है?

- A. FTP
- B. SMTP
- C. DNS
- D. POP3

Q49. In a star topology, the central switch stops working.
What is the most likely result?

Star topology में central switch काम करना बंद कर दे तो सबसे संभावित परिणाम क्या होगा?

- A. Only one cable will stop working
- B. Communication between connected devices may be disrupted
- C. All devices will automatically form a ring
- D. Internet speed will always increase

Q50. A user wants to send an email and later receive it in an email client. Which protocols are most directly related to these two tasks?

User email भेजना चाहता है और बाद में email client में उसे receive करना चाहता है। इन दोनों tasks से कौन-से protocols directly related हैं?

- A. FTP and HTTP
- B. DNS and TCP
- C. SMTP and POP3
- D. Telnet and TFTP
